SCQF Level 8 / SCQF Credit Points – 13

GREEN FINANCE CERTIFICATE

Fundamentals of Green Finance

Module Version 1

AIM:

To provide a comprehensive insight into the underpinning science, principles and practice of green finance. The module further considers the evolution of aligned products and services, effectiveness, monitoring and risks. The module closes with consideration of how green finance can be brought into the mainstream.

ACCESS STATEMENT:

There are no entry requirements for the module and it may be accessed by anyone interested in professional development, either by developing their existing understanding or those wishing to gain new insight.

It should be noted that the supporting learning material and the assessment will be delivered in English.

PROGRAMME OF STUDY TO WHICH UNIT CONTRIBUTES:

- Professional Banker Diploma
- The Green Finance Certificate: Fundamentals of Green Finance may be studied on a standalone basis and can also act as a contributory module to the three modules standalone basis and can also act as a contributory module to the three modules required for Professional Banker Diploma.

LEARNING OUTCOMES:

Knowledge, Understanding and Skills

On successful completion of this module, students will be able to:

1. Explain the scientific underpinnings that have influenced the development and evolution of green finance products and services.
2. Understand the significance of green finance's vision, principles, strategy and performance measurement.
3. Explain the range of green finance products and how they influence opportunities and challenges for mainstreaming green finance.

METHOD OF LEARNING:

Blended learning

ASSESSMENT:

- One 1-hour examination consisting of 50 objectively assessed questions.

Module Version 1 (Cont'd.)
